## bluENERGY

A successful synergy of energy efficiency, user comfort and modern design.

Number of chambers: 6 in the frame and sash  
Installation depth: 82 mm  
Gaskets: 3  
Tilt & Turn Roto NX hardware with a load capacity of up to 130 kg  
Two security strikers on each sash  
Roto Line Secustik handle  
Micro-ventilation in Tilt & Turn sashes  
Warm plastic inter-pane spacer  
Sealed under-sill bar

Triple glass unit with Ug= 0.5 W/m²K  
Uw=0.76 W/m²K\*

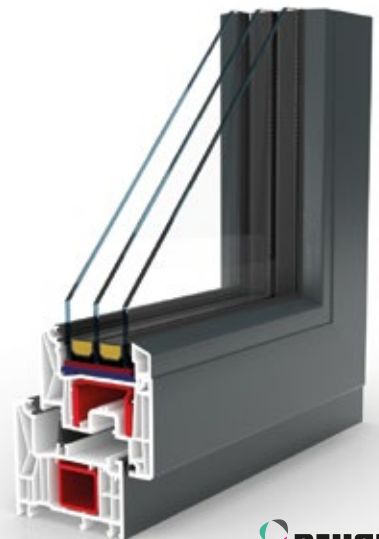

## bluSYNEGO

Excellent thermal insulation parameters, dirt resistance, user comfort, reliability and safety.

Number of chambers: 7 in the frame and 6 in the sash  
Installation depth: 80 mm  
Gaskets: 3  
Tilt & Turn Roto NX hardware with a load capacity of up to 130 kg  
Two security strikers on each sash  
Roto Line Secustik handle  
Micro-ventilation in Tilt & Turn sashes  
Warm plastic inter-pane spacer  
Sealed under-sill bar

Triple glass unit with Ug= 0.5 W/m²K  
Uw=0.76 W/m²K\*

## EXTERNAL ROLLER SHUTTERS

Effective protection against excessive sunlight. Greater privacy and security when you want it. Convenient operation, quiet and smooth movement.

Curtain made of high-quality sheet metal filled with polyurethane foam, providing additional thermal and acoustic insulation

When used with brackets, they provide an anti-burglary function

Wide range of colors

Three variants: flush-mounted, adaptive, and top-mounted roller shutters

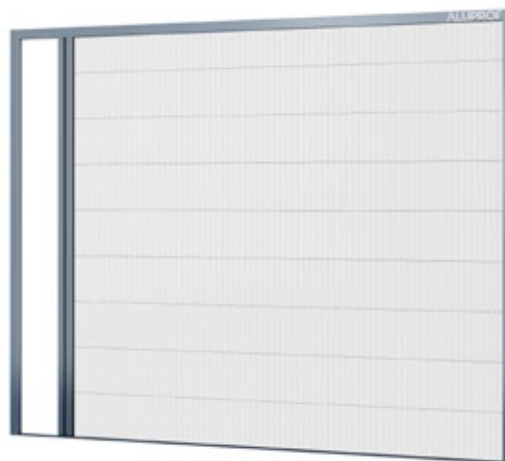

## MOSQUITO SCREENS

Modern solutions providing effective protection against insects while maintaining user comfort.

### Available systems:

- For vertical windows
- For roof windows
- For balcony doors
- For sliding patio doors

Variants: collar screens, rolling screens, frame screens on hinges, sliding screens, pleated screens, and corner screens

## ZIP SCREENS

A modern type of external blinds, providing protection against excessive heating of interiors without completely darkening them.

Effective protection against insects

Fabric made of high-quality fiberglass covered with plastic

Three variants: flush-mounted, top-mounted, and adaptive
